

### Ph.D in Aquatic Living Resources

{xtypo\_rounded2} Minimum duration of research leading to a Ph.D. thesis is set at three years. The Ph.D. title is awarded upon successful completion of a novel research thesis through an open viva to the Examination Committee. Postgraduates are also required to attend a series of postgraduate courses depending on their academic background.

More information can be found at <http://www.pms.apae.uth.gr/en/index.html>
